For many students, trades training in high school can be an excellent option. Trades training provides students with the skills and knowledge they need to enter a variety of high-demand, well-paying careers.

Benefits of Trades Training

There are many benefits to trades training in high school, including:

- **High earning potential:** Skilled tradespeople are in high demand and can earn a good living.
- **Job security:** The demand for skilled tradespeople is expected to continue to grow in the coming years.
- **Hands-on learning:** Trades training is hands-on, which allows students to learn by doing.
- **Real-world experience:** Many trades training programs offer internships or apprenticeships that allow students to gain real-world experience.
- **Career pathways:** Trades training can lead to a variety of career pathways, including management, entrepreneurship, and teaching.

Types of Trades Training

There are many different types of trades training available, including:

- **Construction trades:** This includes Carpentry, electrical, plumbing, HVAC, welding, and more.
- **Automotive trades:** This includes auto mechanics, auto body repair, and more.
- **Manufacturing trades:** This includes machining, welding, and more.
- **Information technology trades:** This includes computer networking, cybersecurity, and more.
- **Healthcare trades:** This includes nursing, pharmacy, and more.

How to Choose a Trades Training Program

When choosing a trades training program, it is important to consider the following factors:

- **Your child's interests:** What type of work does your child enjoy ng?
- **Your child's skills and abilities:** What skills and abilities does your child have that would be beneficial in a trade?
- **The program's reputation:** Is the program accredited? What is the success rate of the program's graduates?
- **The cost of the program:** Can you afford the cost of the program?
- **The location of the program:** Is the program located near your home or workplace?

Tips for Parents

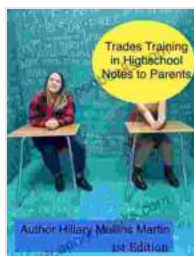

Here are some tips for parents to help their teens succeed in trades training:

- **Encourage your child to explore their interests:** Let your child experiment with different hobbies and activities to find out what they like and what they are good at.
- **Talk to your child about their future goals:** Help your child to set realistic goals for their future and explore how trades training can help them achieve those goals.
- **Visit trades training programs:** Take your child to visit different trades training programs so they can see what the programs are like and meet the instructors.

- **Be supportive:** Let your child know that you support their decision to pursue trades training and that you are confident in their abilities.

Trades training in high school can be a great option for students who want to learn a trade and enter a rewarding career. By providing your child with the information and support they need, you can help them make the most of trades training and achieve their future goals.
