

San Fransicko: Why Progressives Ruin Cities

San Francisco was once a vibrant and prosperous city. It was known for its beautiful architecture, its thriving economy, and its innovative spirit. But in recent years, San Francisco has fallen on hard times. The city is now plagued by homelessness, crime, and poverty. And many of these problems can be traced back to the city's progressive policies.

Progressives have long dominated San Francisco's politics. They have implemented a number of policies that they believe will make the city more equitable and sustainable. But these policies have often had the opposite effect.

For example, progressive policies have made it difficult to build new housing in San Francisco. This has led to a shortage of affordable housing, which has in turn contributed to the city's homelessness problem.

Progressive policies have also made it more difficult to prosecute criminals in San Francisco. This has led to an increase in crime, which has made the city less safe for residents and visitors alike.

In addition, progressive policies have made it more expensive to do business in San Francisco. This has led to a decline in the city's economy, which has resulted in the loss of jobs and tax revenue.

The problems facing San Francisco are a warning to other cities that are considering adopting progressive policies. These policies may sound good in theory, but they can have disastrous consequences in practice.

Why You Should Read "San Fransicko"

"San Fransicko" is a must-read for anyone who wants to understand the problems facing our cities today. In this book, author Michael Shellenberger takes a hard look at the progressive policies that have destroyed San Francisco. He shows how these policies have made the city less affordable, less safe, and less prosperous.

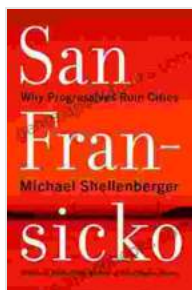

"San Fransicko" is a wake-up call for cities across the country. It is a reminder that progressive policies do not always lead to progress. In fact, they can often have the opposite effect.

If you are concerned about the future of your city, then you need to read "San Fransicko."
