Articles

The issue begins with an article by Robert Kagan, a senior fellow at the Brookings Institution, entitled "The End of the Liberal Free Download?" Kagan argues that the liberal world Free Download that has prevailed since the end of the Cold War is in danger of collapse. He points to the rise of populism and nationalism, the erosion of international institutions, and the increasing use of force by states as evidence of this trend.

Another article, by former US Secretary of Defense James Mattis, examines the challenges facing the US military in the 21st century. Mattis argues that the US must adapt to a new era of great power competition and that it must invest in new technologies and capabilities to maintain its military superiority.

Other articles in the issue cover a wide range of topics, including:

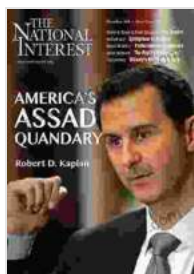

- * The future of US-China relations
- * The impact of climate change on national security
- * The rise of artificial intelligence and its implications for warfare
- * The challenges of counterterrorism in the digital age

Features

In addition to its articles, the issue also includes a number of features, including:

- * A review of the latest books on international affairs
- * A profile of a leading figure in the field of national security
- * A debate on a controversial issue

The National Interest November/December 2024 146 is a must-read for anyone interested in global affairs and national security. The issue features a wide range of articles from leading experts in the field, and it provides in-depth analysis and commentary on the most important issues facing the world today.
